

KIOSKS AND WAYSIDES: BEYOND THE BULLETIN BOARD

Presented By:

Tom Mullin

Connecticut Land Conservation
Conference 2017

America's Environmental College

A person with their back to the camera, wearing a white t-shirt with a graphic and a headband, stands on the deck of a boat. They are looking out over a body of water towards a coastal town with buildings and a lighthouse. The entire image has a green tint.

Interpretation Board of Directors

Waldo County Trails Coalition
Chair of the Steering Committee

WORKSHOP OVERVIEW

- ▶ Waysides and Kiosk...What are you hoping from this workshop
- ▶ Fabrication and Installation. Options, Pros and Cons
- ▶ ADA -Basics of Compliance with ADA Standards
- ▶ Nationwide resources for learning more about wayside design, fabrication and ADA issues

Definitions and Jargon

- ▶ Waysides
- ▶ Kiosks
- ▶ Fabrication
- ▶ Installation

FUNDAMENTALS OF DESIGN

QUESTIONS TO CONSIDER

To ensure a smooth and efficient process of developing effective exhibits, there are a few questions you should consider from the start:

What are your interpretive objectives for the specific site or sites? What is the essence of the message or story that you want to convey?

Who will be working on the project and what is everyone's specific role? How do you reach consensus to satisfy both local and international audiences?

What visitors do you expect? Are there any special considerations that should be made for children, families, international visitors, and those with disabilities? To what extent should the exhibit address Americans with Disabilities Act accessibility guidelines?

What other information exists about your story, including publications, audiovisual shows, films, and audio cassettes? How will your exhibit relate to other media?

Fundamentals of Design

Do you need any sign permits?

What are your budget constraints?

What is your timetable? When do you want to break ground or install

SO WHAT IS THE COST?

Project Budget The total fabrication cost for a standard 24”x36” horizontal wayside exhibit is approximately \$900. In addition to the standard 24”x36” panel, For each exhibit, plan on investing approximately \$300 for coordination and \$300 for research and development. Volunteers can reduce a project's coordination and development costs. Remember, costs will decrease as the number of exhibits increase.

Interpretation: Telling the Story Principles of Successful Interpretation ?

- 1) Interpretation is provocation, not just information. Illustrate with analogies, quotes, metaphors, and examples. Use text that encourages visitor interaction: • "Look for the..." • "Touch the..." • "Can you hear the...?" • "See if you can find the..." • "Imagine the..." • "Smell the..."
- 2) The best interpretation is succinct. Use short sentences. Concentrate on one subject. Don't worry about including all of the details. Visitors usually ignore long, complex messages. Avoid creating a "textbook on a stick."
- 3) Individual exhibits should complement each other by presenting a unified theme. This helps advance a project's organizational structure and provides visitors with a better understanding of the site's significance. "Interpretation is an information service, a guiding service, an educational service... an inspirational service. Interpretation aims at giving people new understanding, new insights, new enthusiasm, and new interests." -

4) Help visitors relate the exhibit's topic to their own lives. Use familiar terms and personal language. Use everyday objects and events to illustrate the past, such as: “In 1889, horses were as common as automobiles are today.”

5) Use photos, maps, and images to illustrate your point. Use stimulating and revealing graphics—avoid duplicating what can be seen.

6) Reveal message conclusions through unique or unusual viewpoints.

7) Accuracy is essential. Make sure your facts are correct—mistakes on interpretive exhibits live for a very long time!

8) Have fun. Be creative. Learn a little Be funny. Humor is a okay..don't have to be serious all the time

VISITORS REMEMBER.....

- ▶ 10% of what they hear;
- ▶ 30% of what they read;
- ▶ 50% of what they see;
- ▶ 90% of what they do—if an exhibit encourages interaction and stimulates thought, it fulfills its purpose by reaching almost all site visitors.

BOTTOM LINE TO REMEMBER

Effective wayside/kiosk exhibits contain fewer than 300 words and feature no more than four to five graphic images.

You have fewer than 30 seconds to capture their attention and to get your message across..Be concise!

DESIGN BASICS

http://www.lcbp.org/wayside/Manual/Lo_Res_Manual.pdf

Fabrication...

- ▶ Brainstorm session
- ▶ What are your ideas and what have you seen

COSTS...BALLPARK FIGURES

- ▶ Panel Size 1/8 inch 1/2 inch 12x17 inches \$70 - \$160 \$90 - \$180
- ▶ 18x24 \$130 - \$250 \$180 - \$290
- ▶ 24x36 \$250 - \$400 \$340 - \$470
- ▶ 24x42 \$310 - \$450 \$420 - \$530
- ▶ 36x48 \$490 - \$660 \$670 - \$810
- ▶ Prices may vary. Costs do not include packaging, shipping, and a lab sample. Plan on adding \$50-\$100 per exhibit for these additional services, depending on size of order. Lead-time: 30-45 days for most contractors. ESTIMATED PANEL COSTS

Installation Brainstorm

- ▶ What are some ways you have seen outdoor exhibits installed or constructed

Base and Frame Fabrication

The Classic Frame..seen throughout the NPS System and other locations...state, local and historic sites/museums

- ▶ Panel Base Base w/o frame w/ frame
- ▶ 12x17 inches \$150 - \$385 \$190 - \$470
- ▶ 24x18 \$170 - \$385 \$350 - \$470
- ▶ 24x36 \$310 - \$385 \$450 - \$470
- ▶ 24x42 \$330 - \$530 \$460 - \$620
- ▶ 36x48 Upright N/A \$490 - \$730
- ▶ 36x48 Double Upright N/A \$910 - \$1,450

- ▶ Prices may vary. Shipping may be included, depending on the company.
Lead time: 40-45 days for most contractors.

A photograph of three staff members at an aquarium. One staff member is kneeling in the water, holding a white board with a marker and a small object. Another staff member is standing to the left, looking at something in her hands. A third staff member is standing to the right, holding a white tray. In the foreground, the back of a beluga whale is visible in the water. The background shows a wooden fence and some foliage.
