

Accessing The Nature Conservancy's Resilience Science

All climate resilience products, including data, reports, papers, and web tools, are hosted on The Conservancy's public facing website, the **Conservation Gateway**, under **Climate Resilience**: <http://www.conservationgateway.org/ConservationPractices/ClimateChange/Pages/Climate-Resilience.aspx>

Here are some links to specific products and geographies.

Resilient Land: Mapping Tool

<http://maps.tnc.org/resilientland/>

Resilient Land:

Mapping Climate Resilience using Topographic Microclimates and Connectedness

Reports
