

Botanists qualified to, and willing to, perform *de novo* (i.e., comprehensive) surveys for State-listed plants and rare plant communities/Critical Habitats in Connecticut. Working draft of 2020-03-11. The people on this list have indicated that they are comfortable conducting rigorous surveys for whatever State-listed rare plant, rare plant communities, and Critical Habitats may exist on a Connecticut site, with or without a list of target species provided by the CTDEEP-NDDDB. CBS Ecology & conservation Committee, ROW Subcommittee working draft list as of 2021/04/12.
